

## The WormBoss Song

Have you seen the latest thing to kill off worms in sheep  
It's sitting on the internet, why don't you take a peep  
You'll find this little beauty at WormBoss dot com au  
And if you choose to use it, the worms are in the pool!

Ch

WormBoss, WormBoss it's absolutely great  
It helps you kill the worms in all your lovely sheep mate  
When you use the WormBoss your sheep are free of grubs  
And you've got money in your kit when you go down to the pub!

Ch

Some blokes decide to drench their sheep by looking in their eyes  
Without the Boss and egg counts their sheep will likely die  
The Boss says test resistance to be sure which drenches kill  
It's much more cost effective than guessing like a dill

Ch

The Boss says let's get clever with the way we graze our sheep  
So the worms go hungry and we're easy in our sleep  
We use the Boss to breed our sheep resistant to the worms  
So when the worms attack, well our sheep just turn the worm!

Ch

So sit at your computer, dial up WormBoss on the web  
And then you won't be guessing, you'll have the facts instead  
Your sheep will all grow healthy and have lambs and wool galore  
And you'll wonder why the WormBoss wasn't round before!

Ch
