Disclaimer:

Each regional 'WormBoss worm control program' has been developed from local research results and experience proven to be relevant and successful for most farms in the region. ParaBoss acknowledges that this is not the only method of worm control in the region and more refined programs can be developed in consultation with your worm management adviser/veterinarian using information and knowledge specific to your property and sheep.

wormboss

The WormBoss website is the most complete and current source of information for producers, advisors and students on sheep worms, drenches and worm control in Australia.

On the site you will find information and tools:

Regional worm control plans

A step-by-step guide to controlling worms practically, effectively and profitably on your property all year round.

Regional Drench Decision Guides

A tool to help you decide whether your sheep need drenching now, and if so, what length of protection is required and when to check the sheep again.

Drenches

Lists all of the drench groups and combinations as well as actives and brand names.

Tests and tools

'How to' guides are provided on WormTests, DrenchTests and more.

Worms

Describes the important worm species, their lifecycle and how they affect sheep.

Subscription
